### THYCOTIC SECRET SERVER

#### AUTOMATED SECURITY FOR YOUR PRIVILEGED PASSWORDS

Thycotic Secret Server centralises the way you manage privileged passwords, storing them in an AES 256-bit encrypted repository with full visibility. So you can:

##### Discover

Automatically discover all your privileged accounts so you have 100% visibility

##### Vault

Store your passwords in a secure, encrypted vault with two-factor authentication

##### Enforce

Enforce your password policies like complexity and change frequency, and prevent sharing

##### Monitor

Track access to privileged accounts, maintain accountability and compliance

ENHANCE YOUR PRODUCTIVITY  
STRENGTHEN YOUR SECURITY
